

Formular for the creation of good practice examples

Thank you for supporting the web portal with a good practice example of your event!

With the following form we would like to support you in formulating the details of your example in an uncomplicated and structured way. Simply answer the individual questions one after the other.

Note: The aim of the good practice examples is to provide readers with a detailed insight into a measure. This includes not only success stories, but also the methods used and challenges overcome. We would therefore like to ask you to focus on a single measure (e.g. reuse of materials, selection of sustainable volunteer clothing) and refrain from enumerating.

If you would like to submit more than one example, please fill out another form.

KEY DATA

Event and Organisation:

Place and date of the event:

Name/title of the initiative (e.g., "Inclusive wins"):

Brief description of the initiative (e.g., "Fairtrade Volunteer Kit"):

Note: Complete the title by describing the measure in a sentence

CHALLENGES

5. Please list the challenges you encountered during implementation, describe how you overcame them, and, if applicable, explain why they could not be resolved.

SUCCESS FACTORS

6. Briefly list the key success factors of your initiative—without which the successful implementation of this best practice example would not have been possible.

INFORMATIONS

7. Where can interested parties find out more about you, the event, and your initiative? (e.g., website, online resources, contact information)

Please also send us an informative photo (preferably in landscape format, 300 dpi resolution, file size at least 500 KB) of your measure, stating the copyright.
